

ROCKCLIMBING ADVENTURE DAY

This is a great way to experience rock climbing outside, and find out what's it all about. You will be taught by Australia's best rockclimbers and guides.

The Blue Mountains contain some of the best climbing venues in Australasia.

We make sure you do as much climbing as possible.

We start the day by introducing you to the safety aspects, and teach you climbing techniques and methods.

Then we progress through a series of routes, from slabs (less than vertical) to overhangs, and try out some cracks and walls.

What is included?

All the safety equipment – We supply all the ropes and hardware, and will kit you out with harnesses, helmets, rock climbing shoes, and anything else you may need.

We supply a wholesome lunch, and drinks to keep you going all day.
