If you have one or two days in the Blue Mountains and want to do the best climbs, then our guides can take you there. We find out what you want to achieve (perhaps scale a 200m+ wall, or do a bunch of classic middle grade routes) and make it happen.

If you want to climb, come out with Australia's best climbers. We specialize in taking you on the best multi-pitch routes in the mountains. Some of the most popular climbs include – Sweet Dreams (200m 14). West Face of the Mirrorball (140m 22), and Hotel California (350m 21).

SWEET DREAMS GUIDED ASCENT

This is one of the best multi-pitch adventure climbs in the Blue Mountains. At over 170 meters in length and grade 14, it is an obtainable objective for climbers with little previous experience.

Located in the World Heritage listed Blue Mountains National Park, Sweet Dreams weaves it's way up the walls of Sublime Point.

We start our adventure with a cable traverse to reach the base of Sweet Dreams. From there its seven pitches of climbing to the top, which includes cracks, corners and face climbing. The route follows a powerful line up the face, and has a grade 17 variant pitch to up the challenge, if you like.

This is a full-day adventure, we stop on a ledge for lunch.

This trip is run as a privately guided ascent for one or two clients only.
